Finish Options

The process of powder coating involves applying dry pigments using an electrostatic process, then baking them on to create a lasting and durable, as well as beautiful, finish.

The products found in the following section implement the powder coating technique. When ordering, please use the Finish Options Guide below.

Please indicate the type of finish by using the following abbreviations:

- AN** = Antique Nickel
- B** = Flat Black Powder Coat
- SP** = Grey Speckled Powder Coat
- SAT** = Satin Black
- CV** = Copper Vein Powder Coat
- ORC** = Oil Rubbed Copper
- ORB** = Oil Rubbed Bronze

Epoxy Kit

Olé Iron Slides

With the advent of the adjustable iron slide baluster, the do it yourself person can now design and install their own balustrade. Using only a drill, screwdriver and an allen wrench, the adjustable iron baluster can replace your old wood spindles without the expense of a professional. Leave your wood rail and newels in place, remove the wood spindles and replace them with a wrought iron balustrade quickly and without a big mess. Presto, you have a new design favor for your living area.
